

# Docking Drawer®

Flush Pop Up Series

**NEW**  
Configurations  
& Finishes

Docking Drawer is the worldwide leader of hidden electrical outlets. Our 220V Flush Pop Up Series outlets are Australian Certified for Safety and EMC and simple to install into any kitchen worktop. Sitting just 2mm above the worktop surface, our Flush Pop Up outlets integrate seamlessly to ensure no worktop functionality is lost when not in use, and can be expanded with a tap to conveniently power electric tea kettles, small appliances, chargeable devices and more.

# Power With Purpose

Designed with high quality finishes and materials and a sealing ring to prevent dust and debris from entering, Docking Drawer Flush Pop Up outlets offer you the ability to safely power with purpose. Choose from configurations including a combination of USB-C (PD), USB-A and AUS Type I outlets, all featuring Qi wireless charging capability on top. Mount your Flush Pop Up in the worktop, in an upper cabinet or as a pop-out wall power source to conveniently add power where you need it most.

## Smart

Docking Drawer Flush Pop Up outlets can be mounted into worktop surfaces, upper cabinets or as a wall pop-out power source.

## Simple

Docking Drawer Flush Pop Up outlets are simple to install and are easily concealed, as they sit just 2mm above the worktop surface when closed.

## Safe

Australian Certified for Safety and EMC featuring tamper resistant Type I outlets and USB-C (PD) ports with an internal thermoregulator to prevent electronics from overheating while charging.

# Everything You Need to Plan Your Project

We offer all the resources needed to ensure a simple specification process. Start by taking basic measurements to find the best pop up for your project, then check out our installation and planning resources that include everything you'll need to specify your Docking Drawer Flush Pop Up outlet with ease.
