

Docking Drawer®

Blade Series Deep Cabinet
Tear Sheet

BLADE 1514-180-X30

Revision 1

Docking Drawer is the market leader of in-drawer outlets, offering the only ETL-Listed solution unsurpassed in both safety and quality. Blade Series Deep Cabinet solutions feature longer cable management arms to accommodate deeper and wider cabinets, most commonly found in kitchen islands. Designed intentionally for use inside of a drawer, our outlets feature an integrated thermostat that cuts power if surrounding temperatures exceed 120°F and cable management arms that guide and protect the power cord as the drawer opens and closes. Premium, all-metal components guarantee long-lasting durability, while the capacity to easily update the outlet as technology changes over time ensures lifelong usability. Install our in-drawer outlets with ease into drawers of any type to eliminate cord and device clutter from countertops and surfaces for more organized and functional spaces.

Blade Series Deep Cabinet Blade 1514-180-X30
